

Environmental Policy

Purpose

CoolCo is committed to minimising our environmental footprint. Liquefied natural gas (LNG), as the cleanest fossil fuel, plays a key role in the transition to a carbon-neutral and sustainable future. We aim to transport and regasify LNG with the lowest possible environmental impact.

Scope

This policy applies to all CoolCo employees and operations, and supports compliance with:

- ISM Code
- ISO 14001

Our Commitments

We shall:

- Minimise our environmental impact, particularly on the marine environment
- Reduce emissions to air and aim for zero spills
- Identify and manage environmental aspects of our operations
- Measure, report, and review environmental KPIs regularly
- Set increasingly ambitious environmental goals
- Use proven technologies to reduce environmental impact
- Comply with applicable regulations, including:
 - IMO, national and classification society requirements
 - IMO Hong Kong Convention (HKC) and EU Ship Recycling Regulation (EU SRR)
